Finding Bennelong is a resource which explores the historical evidence and different perspectives about the life of Woollarawarre Bennelong. This resource provides an overview of Bennelong’s life through video narrative, delivered in five thematic sections.

Can little favourable be said about Bennelong as the Sydney Press wrote at the time of his death, or was he well respected by his own people as a leader, elder and brother?

Finding Bennelong was a victim of circumstances who was randomly captured, interrogated and used by the English for their own purposes?

Was he a canny political strategist?

This narrative is designed to be initially explored in order, as the story unfolds. Extensive research material, including quotes and images are also available.
