

David Look

David W. Look, FAIA, FAPT, retired American historical architectural engineer and cultural resource manager of over 35 years of experience in the U.S. National Park Service, has researched, written, and lectured widely on various preservation topics from metals to the seismic retrofit. His outstanding contributions to preservation technology have been recognized by the American Institute of Architects College of Fellowship, Association for Preservation Technology International College of Fellowship, and the U.S. Department of the Interior (and Distinguished Service Awards). He is a member of the ICOMOS International Scientific Committee for the Analysis and Restoration of Structures of Architectural Heritage.
